

AKASH KUMAR

Software Engineer · Full-Stack Developer · C++ / DSA · MERN Stack
+91-8863079979 | akashkumarhzb121@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

A Full-Stack Developer with hands-on experience building and deploying **production web applications** for real clients, including **RBAC-secured platforms, real-time systems (Socket.IO), and LLM/RAG-based AI features**. Strong foundation in **C++, DSA, OOP, DBMS, REST APIs, and authentication/authorization**. Seeking an **SDE / Software Engineering Internship**.

TECHNICAL SKILLS

Languages: C, C++, JavaScript (ES6+), TypeScript, SQL

Frontend: React.js, Vite, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Three.js, GSAP, Framer, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, JWT, Authentication, Authorization, RBAC, Socket.IO, Rate Limiting

AI / LLM: Groq API (Llama 3), Retrieval-Augmented Generation (RAG), Prompt Engineering

Databases: MongoDB, MongoDB Atlas, Mongoose, SQL, Database Schema Design, CRUD Operations

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, System Design

Tools / Cloud: Git, GitHub, Postman, Vitest, Vercel, Render, Cloudinary, VS Code

EXPERIENCE

Full Stack Development Intern

Jun 2026 – Jul 2026

Codeup

Remote

- Completed a **45-day Full Stack Development internship** covering project development, debugging, teamwork, and deployment.
- Developed a full-stack **Student Management System** using MERN with role-based Admin, Faculty, and Student portals, secure authentication, REST APIs, and cloud deployment.

Web Development Intern

2025

Novitech Pvt. Ltd.

Remote

- Developed and delivered **2 responsive production landing pages** within a 30-day development sprint using HTML5, CSS3, and JavaScript.
- Implemented mobile-first, cross-browser responsive layouts for mobile, tablet, and desktop per client requirements.

PROJECTS

PORTFOLIO — Developer Portfolio & SKY AI Assistant | React · TypeScript · Express · MongoDB · Groq

2026

[Live Demo: *skykumar.vercel.app*](#)

- Built a full-stack TypeScript portfolio with **React 19, Tailwind CSS v4, Three.js, and GSAP**, featuring an interactive 3D physics badge and smooth-scroll animations; deployed on Vercel and Render.
- Engineered **SKY AI, a RAG chatbot on Groq (Llama 3.3 70B)** with a 22-category intent classifier, multi-turn context resolution, and hybrid semantic + keyword retrieval over a MongoDB knowledge base.
- Developed an Express 5 backend with **Zod validation, Helmet, CORS whitelisting, per-IP rate limiting**, an admin conversation-history API, and async email lead alerts; covered by **116 Vitest tests**.

REAL WORLD — Modplint Interiors | React · Node.js · Express · MongoDB · JWT · Cloudinary

2025 – 2026

[Live Demo: *modplintinteriors.com*](#)

- Developed a production website for a real interior-design business with portfolio, services, client inquiries, consultation booking, testimonials, and an **admin CMS**, from requirements through deployment.
- Built **REST APIs** with JWT cookie authentication, express-validator input validation, and rate limiting on MongoDB Atlas.
- Implemented **direct browser-to-Cloudinary signed uploads** with client-side compression to bypass serverless request-size limits, and per-page **SEO** (Open Graph, breadcrumb schema).

HACKATHON — RapidCare (Smart India Hackathon 2026) | MERN · Socket.IO · Groq AI

2026

[Live Demo: *rapidcare108.vercel.app*](#)

- Built a rural healthcare care-continuity platform with **JWT-secured RBAC** for Community Health Workers, Emergency Operators, and Hospital Staff, seeded with real hospital data from public health sources.
- Integrated **Groq LLM triage** that classifies severity and required specialization with a keyword fallback; critical cases **auto-create an emergency incident** and dispatch an ambulance with bed auto-decrement.
- Implemented patient records, referral tracking, follow-up worklists, and hospital resource dashboards with **Socket.IO real-time updates**.

ENGINEERING — Student Management System | MERN · React 19 · Node.js · Express · MongoDB · JWT

2026

[Live Demo: *collegesms.vercel.app*](#)

- Engineered a college ERP-style platform with **Admin, Faculty, and Student RBAC**, supporting attendance, fees, assignments, examinations, timetable, notices, and leave workflows.
- Designed **20+ REST API endpoints and 15+ MongoDB collections** with JWT refresh-token authentication, bcrypt, Helmet, rate limiting, and cloud deployment using Vercel, Render, and MongoDB Atlas.

EDUCATION

B.Tech — Computer Science & Engineering

2024 – 2028

Global Institute of Technology

Jaipur, India | CGPA: **8.2 / 10**

CERTIFICATIONS

Full Stack Development Training — Codeup · **Generative AI** — Google Cloud · **Data Analytics with Generative AI** — Simplilearn · **Full-Stack Development Challenge** — Novitech Pvt. Ltd.
